Foreign Trade Zone Program Feasibility Questionnaire

This questionnaire is intended to identify potential benefits of the Foreign Trade Zone program on your operation. Any information you provide will be kept confidential. The U.S. Foreign-Trade Zones program is administered by the U.S. Customs Service (CPB) and offers substantial advantages to U.S.-based manufacturers and distributors. Foreign-Trade Zones are considered outside of U.S. commerce for Customs purposes which enables companies to defer duty payments on merchandise until it is entered into U.S. commerce. If the merchandise is subsequently re-exported from the FTZ, no Customs entry is filed, and no duty paid on the merchandise.

Instructions: Please print and complete the form. Once completed, please email or fax back to EGI or the agency/person you received it from.
